

KNOW THIS...

From Torments to Miracles

Jim Hnatiuk

PEOPLE WHO KNOW JIM HNATIUK

I've had the pleasure of knowing Jim Hnatiuk and working with him for more than a decade, and we remain personal friends. In all the years I've known him, many characteristics greatly impressed me: I know him to be scrupulously honest; a gentleman; and a trustworthy friend. Most relevant to this book, however, is his meticulous attention to accuracy and detail—probably the reason he was able to earn the highest non-commissioned rank in the Canadian Navy. That accuracy is reflected in this report of his personal life experiences. Much of what I read in this book came as a surprise to me—but I believe every word, because I know the author's integrity. What you'll read reveals very personal details of his private life; but it's presented for your benefit. I hope and pray that multitudes will read this remarkable narrative; and above all, that you'll apply its lessons to your own life. The rewards for doing so will amply repay the effort. This book can change your life—for the better.

Mr. Ron O. Gray

Editorial Columnist, Journalist, Public Relations

Jim Hnatiuk is a trusted leader and has provided sage advice, guidance and exceptional service to our church fellowship for over a decade. His book, *Know This...From Torments to Miracles* is a deep personal account of an eye-opening, life-altering journey. Drawing extensively on his personal experiences, Jim offers a vulnerable and honest account of being released from the shackles that have chained him for years. Jim's ability to transcend evil of every kind is powerfully presented. This thoroughly grounded and altogether responsible advice exposes a transformational encounter that is out of this world. Read it and be changed!

The Rev Dr. Lennett J. Anderson CD

Senior Pastor, Emmanuel Baptist Church

Jim Hnatiuk has bravely given us a picture of the ugliness and deception of the realm of spiritual darkness through his own personal experiences. This account reveals a direct attempt to bring a human being into an ongoing relationship with the world of darkness. The demonic world, as he demonstrated, gives us a picture of some of the deceptions used by Satan. This book will not only help you to recognize light from darkness, but how to use that light (“I Am Who I Am”) to overcome your darkness.

Author, Sacrificed? Truth or Politics

I have known Jim Hnatiuk for over 20 years, and he has proven to be a man of incredible integrity and dedication to serving others. It is therefore my privilege to recommend this book to those seeking to be challenged, and to grow in their understanding of overcoming the challenges of life. This autobiography from Jim both challenges us and reminds us that there is an unseen battle going on for the very souls of all people. For those many men and women across all walks of life who are struggling with a wide variety of issues, this book and its insights will provide guidance, hope and inspiration that change and freedom is possible.

ACKNOWLEDGEMENTS

With the sincerest of intentions,
I'd like to acknowledge all my brothers and sisters.
I love them and my heart goes out to each of them.

They have their own life story;
this book only has to do with mine.

I thank God for my biological mother and father
who brought me into this world.

Regardless of what I've shared in this book,
I love them both, and nothing will ever change that.

CHAPTER ONE

Know This Preamble

The one important thing I am attempting in writing this book is to put to the best use possible what I've experienced and learned in my sixty-five years, so others may benefit from this knowledge. You can be assured that I'm not writing to seek sympathy nor some type of self gratification; that would be a tragic waste of my time and yours. This book will not be a waste of your time, if you commit yourself to reading it to the end—and then put some of this information to the test so that you to can greatly benefit as I did.

*“Many suddenly realize that there **is** hope, when they thought they had lost all hope.”*

In public speaking engagements over the past decade, I've been able to share snippets of these astonishing life experiences, and I've been told that even those talks have helped many come to a better understanding of some of the phenomena and/or life struggles that they and/or their loved ones are suffering through. Many suddenly realize that there *is* hope, when they thought they had lost all hope. Therefore I'm confident that those reading this more detailed account will most assuredly benefit more after knowing the complete story. Don't get hung up on any particular chapter; make a commitment to

see this to the end—because, believe me, there is a force that will be trying to convince you to do otherwise.

There are a couple of important preambles that should be clearly understood by those choosing to read these life chronicles.

First, to adequately capture the true magnitude and the intensity of the supernatural experiences described in this book, I'm sure my command of the English language must be lacking; and in some cases I'm sure that there are no words yet created on earth to possibly give them true justice. Yet I endeavour, nevertheless.

Second, I'm sure you are going to find some of these amazing experiences very difficult to believe. You must understand that what I share with you is *not* fictional; it is true in every detail. I know it, because I lived it. What I share with you is not something I read about in a book, it's something I physically, spiritually, and supernaturally experienced.

No doctor, psychologist, clergyman, or other person, regardless of their learned study, could ever convince me that what I experienced was anything other than what I am about to tell you it was. All this preamble is to say that I, a totally sane man, have been “there and back”—and therefore I will object to anyone who disputes or suggests that they know more, unless they have been “there and back” themselves.

It is my utmost hope and full intention that the accounts I'm about to share with you will give you new hope, and help you better to understand and believe how you, too, can overcome many of the obstacles in life that stand in your way. Also included are those obstacles that may be standing in the way of a loved one—and that is *regardless the size or the nature* of those obstacles.

I'm convinced that anyone who truly endeavours and properly utilizes what I am about to share will be able to tap into an almost inconceivable resource that few on earth even realize exists.
